Subject: Electrolux

Brian: I followed up with Golder Associates regarding your question below. They see no statistically significant trend so far in either MW 65 or MW 66. Be glad to discuss Golder's reasoning. Doug

Subject: RE: Electrolux

Table 1 page 5 of 5

MW66 - 3.9 in 2015 and 11.5 in 2017

MW 65 non-detect in 2013 and 3,230 in 2017
It was 65 not 67.

Well, my mistake again. I did not correctly print out what I sent you. I see now that it did include the tables and figures. Looking at the former, I do not immediately see an upward trend in either well. Which specific results are you referencing?

Thanks, is MW66 and MW67 trending higher?
